Bank	02	BNZ
Branch	0684	Marion
Account	0067643 002	Automationz Consulting Limited

Notes –

1. Any part that includes a part number of 3P or has "3 Section" in the description fits the new "triangular" axle system. These will not fit onto a traditional round axle.
2. Any description with an "MJ" Prefix is a Meccano Junior part. MJ Wheels with a J prefix have a larger centre hole to fit the MJ Axles.
3. Be aware that prices for the same part vary considerably depending on colour. We carry limited stock of the more expensive colour options, but can get always get them for you on special order.
4. When ordering a complete motor/battery combination, you need to order
 - a. 1 x A651 motor with switch and end plate (Trap)
 - b. 1 x B114 Battery Lid Pair, in whichever colour
 - c. if you want 6V operation, then you also need a A662 6V spacer and Trap
5. When ordering tyres, note that the 142 number range need to be fitted to a suitable pulley or rim, while the 187 range press fit straight onto the axle.
6. Shipping & Handling within New Zealand is at one standard price (sent via courier), so you might as well order more parts in one order rather than split your orders. If you order through the website (www.meccparts.com) then you will get a lower S&H charge.
7. Please make sure that you indicate on your order whether you want to take part delivery if we do not have some parts in stock. We can either hold your whole order until all the parts are available (which might take up to a month) or we can ship the available parts now and send the rest when they arrive into stock. We will however have to charge you actual postage on the back-ordered parts when they arrive (but we won't charge a second handling fee).
8. We are delighted to supply orders internationally. We will charge you \$5 packaging and handling, plus actual shipping. You have the option of Airmail Parcel Post or UPS.
9. Don't forget that you can freefax your order.
